

ENENSYS takes part in the Spanish Furia PSE project

ENENSYS' solution makes the live DVB-T2 transmission real !

ENENSYS Technologies participates in the **DVB-T2 Spanish Furia PSE** project and demonstrates its expertise on this new standard by providing the **DVB-T2 modulator** for the live transmission.

The main purpose of this project is to validate the emergent technologies for the diffusion of audio-visual contents to fixed and mobile terminals. This project gathers the efforts of various national organizations (companies, technological centers and universities) keeping Spain on a high technological level.

ENENSYS' involvement in FuriaPSE project naturally follows its contribution to the **Ofcom pilot** project that now allows to receive DVB-T2 signal in UK.

BroadcastAsia2009

ENENSYS participates in BroadcastAsia from 16th to 19th June 2009 with the **French Chamber of Commerce of Singapore** (FCCS) and will be present on French Pavilion.

Meet us at **Booth 8H3 - 10**. Our team will demonstrate our complete Mobile TV solution, IP distribution solution... We also invite you to come and discover our enhanced **Test & Monitoring offer** !

On **Friday 19th June** (01:10 pm), **Laurent ROUL** - Product Manager Head-end - will take part in the **Tech on the Edge** programme through a conference entitled : "**Vote for Single Frequency Networks**".

ENENSYS also prepares IBC 2009 that will take place from **11th to 15th September** in Amsterdam. ENENSYS will demonstrate:

- its **Digital Terrestrial TV** offer for **DVB-T** and **DVB - T2** :
 - a reliable and unique SFN solution, from Head End to Transmitter,
 - a complete solution with key partners for complete DVB-T and DVB-T2 head end,
- its state of the art **Mobile TV solution** for all delivery networks (DVB-H, DVB-SH, 3G, LTE...)
- its latest **Test & Monitoring** product range: DiviSeries, CastXplorer and LabMod for DVB-T, DVB-T2...
- its new ETI over IP (EDI) solution based on ENENSYS' well known GigaCaster IP gateway.

Please consult our website to know more about upcoming **events**.
